NUCLEAR REGULATORY COMMISSION

[Docket No. 72-4]

Notice of Issuance of Amendment to Materials License SNM-2503; Duke Power Company; Oconee Nuclear Station Independent Spent Fuel Storage Installation

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment 5 to Materials License No. SNM-2503 held by Duke Power Company for the receipt, possession, storage, and transfer of spent fuel at the Oconee independent spent fuel storage installation (ISFSI), located in Seneca, South Carolina. The amendment is effective as of the date of issuance.

By application dated January 19, 1998, Duke Power Company requested an amendment to revise Materials License SNM-2503 and the Technical Specifications for the Oconee ISFSI to change its corporate name from Duke Power Company to Duke Energy Corporation.

This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended

(the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing by December 31, 1998, on whether the action should be rescinded or modified.

The Commission has determined that the issuance of the amendment meets the criteria for a categorical exclusion set forth in 10 CFR 51.22(c)(10)(ii) of the regulations. Therefore, an environmental assessment need not be prepared in connection with issuance of the amendment.

Documents related to this action are available for public inspection at the Commission's Public Document Room located at the Gelman Building, 2120 L Street, NW, Washington, DC 20555.

Dated at Rockville, Maryland, this 30th day of November 1998.

For the Nuclear Regulatory Commission.

William F. Kane,

Director, Spent Fuel Project Office, Office of Nuclear Material Safety and Safeguards.
